

MAANAS S. BUKKURI

VP, Product Management | Enterprise SaaS | AI Product Strategy
Eastvale, CA · (562) 541-5414 · msbukkuri@gmail.com · linkedin.com/in/maanasb

SUMMARY

Product leader with 18 years in enterprise software, most recently VP of Product Management at Entertainment Partners overseeing a \$25M production management portfolio serving the world's top film and TV studios. Prior leadership at American Express and Propel Media. Completing a Doctorate in Business Administration; dissertation focus is how organizations build and operationalize AI readiness, which is the actual bottleneck companies hit when moving from AI experimentation to production.

EXPERIENCE

Entertainment Partners, Burbank, CA

July 2024 – Present

VP, Product Management – Production Management Portfolio (~\$25M revenue)

- Own product strategy for EP's entire production management suite, including **Movie Magic Budgeting, Movie Magic Scheduling, Scenechronize SmartHub, AssetHub, and SyncOnSet**, representing ~\$25M in annual revenue. Also own the **Enterprise Service for SmartID**, the front-end authentication and identity experience spanning every product in the EP platform.
- Shipped **21 major releases across MMB and MMS in 21 months**, a cadence step-change from the prior baseline. Release scope included multi-user collaboration, cloud file management, red flag and conflict management, international budget structure, and episodic/multi-unit scheduling.
- Inherited a product line where studio CSAT was at a multi-year low; reversed sentiment such that **EP product management became a name major studios reference directly in roadmap meetings as an example of partner-quality delivery**.
- Led evaluation (Aug 2024) and org-wide rollout (Oct 2024) of **Jira Product Discovery as the single source of truth for the entire product organization**, consolidating fragmented PM workflows and giving stakeholders self-serve visibility into discovery and roadmap.
- Drove end-to-end onboarding of **Claude Enterprise across the full product organization** and led training on Claude Skills and AI-native product workflows. Designed a Jira-to-PM-collateral pipeline that **compresses work from weeks to hours** and is used by every PM.
- Lead 7 PMs inside a cross-functional org of 50 to 70 people across engineering, design, UX, and QA. Partnered with the SVP of Product Management to establish operating standards and build product discipline in an organization that historically under-invested in it.

American Express, Remote / NY / AZ / India

January 2021 – June 2024

Director, Digital Product Development – Promoted from Senior PM

- Owned an enterprise product portfolio including **Enterprise Web Search, Mobile App Search & Chat, Enterprise Content Management, and Enterprise Forms**, serving hundreds of internal product teams across the Amex enterprise.
- Defined multi-year roadmap and KPIs tied to content discoverability, servicing call deflection, and CSAT. Led and coached a team of product managers and APMs.
- Partnered with engineering leadership to ship platform capabilities including experimentation, visual editing, personalization, and workflow automation across web and mobile.
- Built a community of practice across dozens of internal customer teams through technical consultation and strategy engagement to drive platform adoption.
- Established business outcome metrics (discoverability, servicing call deflection, CSAT) as the operating language of the Product Experience Frameworks org, tying platform investment directly to customer-facing results.

Propel Media LLC, Irvine, CA

Nov 2017 – Sep 2020

Director, Product Management – Acquisition & Retention

- Managed a portfolio of **~750 browser extensions reaching 4 to 5 million users**. Defined the extension architecture supporting multiple clients across verticals.
- Applied Steve Blank's Customer Development methodology to identify and validate new market opportunities from core extension technology. Led cross-functional rollouts with marketing, sales, and account management.

GUESS?, Inc., Los Angeles, CA

Jan 2017 – Nov 2017

Product Manager, Mobile – Consumer-facing iOS and Android apps

- Owned the mobile app roadmap, aligned business strategy with engineering execution, and ran the full project lifecycle from milestone planning through stakeholder reporting.

HYFN, Los Angeles, CA

May 2015 – Jan 2017

Product Manager – Twitter Ads API product (HYFN8 ad platform)

- Defined product strategy and led an Agile team delivering high-value features for advertisers on the Twitter Ads API.

Sysrepublic, Torrance, CA

Jun 2011 – May 2015

Product Manager / Technical Consultant

- Managed integration solutions handling communication between headquarters and 500+ retail stores. Wireframed and prototyped products for stakeholder sign-off, and built a support team serving 30+ B2B clients.

Epsilon, Arlington, VA

Dec 2010 – Jun 2011

Software Engineer in QA

- Validated user stories by testing product functionality and served as subject matter expert for specific product modules, increasing test coverage by 10%.

REI Systems, Sterling, VA

Dec 2009 – Dec 2010

Software Engineer – Under Subhash Kari, now CEO of RootLogic

- Prototyped user interfaces that reduced development time by 33%. Helped design and build the next-generation federal government product using the Model-View-Presenter design pattern.

1-800 Contacts, Draper, UT

Oct 2008 – Apr 2009

Software Engineer

- Worked closely with automation engineers using Extreme Programming practices and took an early leap into Agile, engaging in stand-ups and prioritization meetings while increasing test coverage by 15%.

EDUCATION

California Southern University

Expected 2028

Doctor of Business Administration (DBA) – Dissertation: organizational AI readiness

Quantic School of Business & Technology

Aug 2019

Executive MBA

Neumont University, Salt Lake City, UT

2006 – 2010

Master of Computer Science (2010) · Bachelor of Computer Science (2008)
